

As healthcare leaders deal with **MACRA (MIPS)**, **Accountable Care Organizations (ACO)** and other

Shared Public Healthcare

initiatives

eChrysalis

has assembled the expertise and

“Best Practices”

to assist in the development of strategy to capitalize on these opportunities. Our

business agent

approach builds and evaluates “Best of Breed” products and services, including electronic health record systems (EHR) that are compliant with regulatory mandates, which reduce operating cost, create operational efficiencies, secure data, and provide risk reduction. Our intent is to help the health care provider to recapture personal time, retain their autonomy and obtain a peace in mind. We combine our practice management expertise with a network of strategic partnerships to offer our customers cost-effective products, services and support. From starting point to solution our offering includes:

- Consulting Services
- Revenue Cycle Management / Medical Billing Services
- MACRA "MIPS" Program Management
- Compliance & Regulatory Services
- Staffing Services
- PECOS, NPPES, CAQH & Credentialing Services
- Contract and Negotiation Services

- Practice Fusion & Kareo PM Implementation and Training
- Financial Services
- Audits
- Facilities Management

Again, we deliver proven methods and solutions to offload information technology challenges that health care professions are facing today.
