

## **The fastest growing EHR community in America**

If you're looking for a versatile electronic health record (EHR), Practice Fusion, founded in 2005, offers physicians a web-based system that will work for any practice. Tens of thousands of general practice physicians, specialists, nurses, physician assistants and practice managers currently use Practice Fusion's Electronic Health record (EHR) system, and hundreds more implement our digital EHR each day. ## **A flexible EMR solution**

Serving a wide variety of practice sizes and specialties, Practice Fusion's Electronic Medical Record (EMR) is designed for flexibility. You can add as many accounts and patients as you need and easily customize standard medical history, charting and e-prescribing functions. [See a demo](#) .

## **Our price fits any practice**

Practice Fusion's free, web-based EHR meets the needs of your practice, no matter what its size. Plus, there are never any fees, software licenses or expensive hardware investments with Practice Fusion. Why spend more when using our doctors' EMR will qualify your practice for \$44,000 or more in [HITECH incentives](#) ?

## **Support for specialties**

At Practice Fusion, we've developed EHR efficiency features to meet the precise needs of [over 30 specialties](#) and are regularly adding more. You'll have access to modified templating, specialized charts and frequently used ICD-9 codes
